

(Senior) Frontend/ Backend/ Full Stack Developer (f/m/d)

Full time in Berlin

As Engel & Völkers Capital Crowdinvest, we want to become a sustainable provider of digital financial solutions in the real estate sector. We focus on financing real estate projects of construction projects, land and existing properties for property developers and project developers.

Become part of our success story and form the future of crowdfunding in real estate. Work together with other innovative people on solutions for investments and real estate financing. Benefit from an outstanding work environment in one of the most attractive European cities – Berlin.

To strengthen our team, we are looking for a (Senior) Frontend/ Backend/ Full Stack Developer (f/m/d) to start as soon as possible. We offer an open-ended fulltime contract.

Your responsibilities

As a Full Stack Developer at Engel & Völkers Capital you will be responsible for creating and maintaining the existing Crowd Funding platform. Working with colleagues to help shape the product and deliver an outstanding experience for our customers.

Your frontend skills allow you to create responsive and beautiful user experiences with a keen eye for detail. Knowledge of UX seen as an advantage.

The backend is built on ServiceStack in Dot Net Core (C#) with SQL Server, hosted in AWS. Knowledge of IoC/DI, docker, CI/CD (Azure DevOps), Selenium, Unit Tests, micro service architecture and software design patterns would be advantageous.

The current tech stack:

- ASP.NET MVC
- Dot Net Core 2.x
- C#
- SQL
- AngularJS/Angular;
- TypeScript;
- HTML 5;
- CSS 3 (some bootstrap);

We enjoy new technologies and cloud solutions. If you have React or vue.js skills, we are interested to hear from you.

Your profile

You are passionate about developing web applications in Dot Net related technologies across front and backend aspects of development. Capable of taking ownership of tasks until completion with the required care, attention and communication whilst working to deadlines.

You bring ideas and innovative solutions to problems along with helping to define a development process as part of a growing team.

For Senior Full Stack Developers

As a Senior developer, your experience and knowledge will be embraced to help the team grow. Providing mentoring for junior developers and taking on responsibility with a career potential of future team lead to those who are up to the challenge.

To work for us we need you to have a working permission for Germany.

What we offer

- Dynamic and attractive working environment and freedom for own ideas
- Individual training and further education
- Responsible and varied tasks
- Modern office directly at Ku'damm in Berlin
- Motivated, agile and technical team
- Start-up with short, direct decision-making paths and a familiar working atmosphere
- Access to the global network of Engel & Völkers
- Flexible working hours and overtime compensation
- Employee events, such as Team events, summer events and Christmas party

Ready for a new challenge?

We are looking forward to your application with your CV and earliest start date to be considered for all backend/ frontend/ full stack engineering roles:
