

(Senior) Frontend Developer (f/m/d)

Full time in Berlin

As Engel & Völkers Capital Crowdinvest, we want to become a sustainable provider of digital financial solutions in the real estate sector. We focus on financing real estate projects, such as new construction, land acquisition and existing properties, for property and project developers.

Become part of our success story and form the future of Crowdinvesting in real estate. Work together with other innovative people on solutions for investments and real estate financing. Benefit from an outstanding work environment in one of the most attractive European cities – Berlin.

To strengthen our team, we are looking for a (Senior) Frontend Developer (f/m/d) to start as soon as possible. We offer an open-ended full-time employment contract.

Your responsibilities

As a Frontend Developer at Engel & Völkers Capital you will be responsible for creating and maintaining our existing Crowdinvesting platform.

You will work with colleagues to help shape a unique and competitive product as well as deliver an outstanding experience for our customers.

Your frontend skills allow you to create responsive and beautiful user experiences with a keen eye for detail and knowledge of UX, helping to enhance the user journeys and increase conversions throughout the platform.

Although initially the tasks will be focussed on delivering solutions within the existing stack, as an experienced developer you will be responsible for defining the strategy to replace the existing UI, involved in deciding what stack to move to.

As the company grows, we offer you an opportunity to progress into senior/team lead position and build a frontend team.

Your profile

Deep-knowledge of the following technology stack:

- ASP.NET MVC
- AngularJS;
- TypeScript;
- HTML 5;
- CSS 3 (some bootstrap)

Passionate about developing usable and clean user experiences

Capable of taking ownership of tasks until completion with the required care, attention and communication whilst working to deadlines

Bringing ideas and innovative solutions to problems along with helping to define a development process as part of a growing team.

Experience with React or vue.js are a bonus

Working permission for Germany.

What we offer

- Dynamic and attractive working environment and freedom for own ideas
- Individual training and further education
- Responsible and varied tasks
- Modern office directly at Ku'damm in Berlin
- Motivated, agile and technical team
- Start-up with short, direct decision-making paths and a familiar working atmosphere
- Access to the global network of Engel & Völkers
- Flexible working hours and overtime compensation
- Employee events, such as Team events, summer events and Christmas party

If you also share our joy of working with new technologies and cloud solutions, we would be very happy to get to know you personally.

Ready for a new challenge?

We are looking forward to your application with your CV and earliest start date for the Frontend Developer role:
